

License Transfer Instructions

For transferring a license to another PC the following steps are required:

1. Remove the license from the old PC:
 - a. Press and hold the SHIFT key while double-clicking on the application icon. In Windows 7, keep the SHIFT key pressed while answering the User Account Control dialog.
 - b. Select "Remove License" and enter the provided Activation Code – if you do not have an Activation Code, send the Site Code and MID to licensing@bitifeye.com to get one
 - c. Click on continue and confirm the license removal
 - d. Save the shown Removal Code. (You can copy the text string using CTRL-C)

2. Get the license key for the new PC
 - a. Install and start the application on the new PC
 - b. One of these two licensing dialogs will show up (You can copy the PC information using either CTRL-C or the "Copy to Clipboard" button)

- c. Send the Removal Code of the old PC and the new PC ID information to licensing@bitifeye.com
